Advanced Search & Seizure Real World De-Escalation

Knowing when and how to conduct a search or seizure is a critical part of good police work. This course breaks down the Fourth Amendment and how it applies on the street, giving officers the tools they need to make solid, defensible decisions in the field. You'll get hands-on with the legal foundations behind search and seizure—when you can act, when you need consent or a warrant, and what happens when you cross the line. We'll cover both federal and state cases to make sure you're ready no matter where you work. Through case studies and real-world scenarios, you'll build the confidence to handle these situations the right way.

Real World De-Escalation

Knowing how to calm a tense situation can make all the difference for both officers and the people they serve. This course gives officers the tools to de-escalate safely and effectively, helping prevent unnecessary force and build trust with the community. You'll learn practical skills to recognize when things might be about to get out of hand—and how to use communication and non-escalation tactics to keep them from boiling over. Real-life scenarios and interactive exercises bring these skills to life so you're ready for whatever comes your way.
